

GENERAL FARMING

Applicable Requirements and Compliance Certification

**Farms located in the
Sacramento Metropolitan Air Quality Management District
(SMAQMD)**

This and other SMAQMD forms (if necessary) may be used in lieu of the standard "Part D – Compliance Certification" form we provided as part of the title V application for farms in California. You may use these forms only if some or all of your farm is located in the SMAQMD's jurisdiction. Please read the attached SMAQMD instructions for more information.

Business Name of Applicant: _____

1. Equipment Description: This form lists the generally applicable requirements that may apply to your farming operations. There are no specific pieces of equipment to which this form applies.

2. Applicable Requirement(s) Applicable SMAQMD Rule and Section number that the farm must comply with.	3. Method used for determining compliance. This is the primary method used to determine the agricultural operation is in compliance with the applicable requirement.	4. Compliance Status (Use a separate form for operations with varying compliance status)
<p>RULE 501 AGRICULTURAL BURNING</p> <p>Section 305 An acreage allotment exists for all agricultural burning in the SMAQMD. The acreage allotment can be restricted further by the APCO to preclude a nuisance or violation of an air quality standard. No burning is allowed if the wind direction would cause a nuisance. The APCO and fire agency must be contacted for permission to burn. Burning shall be ignited with approved ignition devices and shall be conducted during specified hours. Specific materials are prohibited to be burned.</p> <p>Section 306 Materials shall be arranged to facilitate efficient burning and shall be free of unauthorized material, and dirt and debris. Material shall be allowed to dry for the minimum amount of time to minimize smoke. Follow specific field crop burn procedures during the Fall burning season.</p> <p>Section 401 Obtain necessary permits and authorizations prior to burning.</p>	<p>I have knowledge that:</p> <p>1. Agricultural burning is conducted consistent with requirements of SMAQMD Rule 501 Sections 300 and 400 et seq.</p> <p>2. Field crop burning is conducted according to the requirements prescribed in SMAQMD Rule 501 Section 300 et seq.</p> <p>and</p> <p>3. Agricultural burn permits are obtained prior to burning and I comply with all permit requirements.</p>	<p><input type="checkbox"/> in compliance with SMAQMD Rule 501 and I will continue to comply with all requirements.</p> <p><input type="checkbox"/> not in compliance with SMAQMD Rule 501 at this time, but I will be by: _____/_____/_____ (submit plan per instructions)</p> <p><input type="checkbox"/> these requirements do not apply to my farming operations because no agricultural burning is conducted.</p>

2. Applicable Requirement(s) Applicable SMAQMD Rule and Section number that the farm must comply with.	3. Method used for determining compliance. This is the primary method used to determine the agricultural operation is in compliance with the applicable requirement.	4. Compliance Status (Use a separate form for operations with varying compliance status)
Conduct burning in accordance with permit.		
<p>Rule 403 FUGITIVE DUST</p> <p>Section 102 EXEMPTIONS: The provisions of this rule shall not apply to emissions emanating from agricultural operations, currently unworked land designated as reclaimed for agriculture, or unpaved roads open to public travel (this exclusion shall not apply to industrial or commercial facilities).</p> <p>Section 301 LIMITATIONS: A person shall take every reasonable precaution not to cause or allow the emissions of fugitive dust from being airborne beyond the property line from which the emission originates, from any construction, handling or storage activity, or any wrecking, excavation, grading, clearing of land or solid waste disposal operation</p>	1. I have knowledge of the control measures in rule 403 and I have taken every reasonable precaution to prevent fugitive dust from being airborne beyond the property line when listed activities are performed.	<input type="checkbox"/> in compliance with SMAQMD Rule 403 and I will continue to comply with all requirements. <input type="checkbox"/> not in compliance with SMAQMD Rule 403 at this time, but I will be by: ____/____/____ (submit plan per instructions). <input type="checkbox"/> these requirements do not apply to my farming operations because no such activities are conducted.
<p>RULE 602 BREAKDOWN CONDITIONS</p> <p>Rule applies to a “breakdown condition” at a stationary source. Breakdown condition means an unforeseeable failure or malfunction of any air pollution control equipment or related operating equipment which causes a violation of any emission limitation.</p> <p>The owner or operator shall notify the District of any breakdown condition as soon as reasonably possible, but no later than one hour after its detection, unless the owner or operator demonstrates to the District’s satisfaction that the longer reporting period was necessary.</p> <p>The District shall be notified in writing within one week following the correction of any breakdown condition. The breakdown notification shall include a description of the equipment malfunction or failure, the date and cause of the initial failure, the estimated emissions in excess of those allowed, and the methods utilized to restore normal operations.</p>	I have knowledge that air pollution control equipment breakdowns are reported to the SMAQMD as required by SMAQMD Rule 602.	<input type="checkbox"/> in compliance with SMAQMD Rule 602 and I will continue to comply with all requirements. <input type="checkbox"/> not in compliance with SMAQMD Rule 602 at this time, but I will be by: ____/____/____ (submit plan per instructions) <input type="checkbox"/> no breakdowns have occurred at my farm. <input type="checkbox"/> rule does not apply to my farming operations.
<p>RULE 105 EMISSION STATEMENTS</p> <p>The owner or operator of any stationary source operation that emits more than 25 tons per year of</p>	I have knowledge that emission statements have been submitted as required by SMAQMD Rule 105.	<input type="checkbox"/> in compliance with SMAQMD Rule 105 and I will continue to comply with all requirements.

2. Applicable Requirement(s) Applicable SMAQMD Rule and Section number that the farm must comply with.	3. Method used for determining compliance. This is the primary method used to determine the agricultural operation is in compliance with the applicable requirement.	4. Compliance Status (Use a separate form for operations with varying compliance status)
nitrogen oxides or reactive organic compounds, shall provide the District annually with a written statement in such form and at such time as the District prescribes, showing actual emissions of nitrogen oxides and reactive organic compounds from that source.		<input type="checkbox"/> not in compliance with SMAQMD Rule 105 at this time, but I will by: _____/_____/_____ (submit plan per instructions)
<p>RULE 442 – ARCHITECTURAL COATINGS</p> <p>No person shall manufacture, blend, repack, supply, sell, solicit or apply any architectural coating with a VOC content in excess of the corresponding limit specified in the Table of SMAQMD Rule 442 Section 301 (adopted 05/24/2001) for use or sale within the District.</p> <p>All VOC-containing materials subject to SMAQMD Rule 442 (adopted 05/24/2001) shall be stored in closed containers when not in use.</p> <p>The permittee shall comply with Test Methods requirements outlined in SMAQMD Rule 442 Section 502.</p>	I have knowledge that I have used only compliant architectural coatings and that all VOC containing materials are stored in closed containers when not in use.	<input type="checkbox"/> in compliance with SMAQMD Rule 442 and I will continue to comply. <input type="checkbox"/> not in compliance with SMAQMD Rule 442 at this time, but I will be by: _____/_____/_____ (submit plan per instructions) <input type="checkbox"/> these requirements do not apply to my farming operations because no such activities are conducted.
<p>40 CFR PART 82 STRATOSPHERIC OZONE</p> <p>If the permittee performs maintenance on, or services, repairs, or disposes of appliances, the permittee shall comply with the standards for Recycling and Emissions Reduction pursuant to 40 CFR Part 82 Subpart F.</p> <p>If the permittee performs service on motor vehicles when this service involves the ozone-depleting refrigerant in the motor vehicle air conditioner (MVAC), the permittee shall comply with the standards for Servicing of Motor Vehicle Air Conditioners pursuant to all the applicable requirements as specified in 40 CFR Part 82 Subpart B.</p>	I have knowledge that the requirements of Subpart B (motor vehicles) and Subpart F (appliances) are being met.	<input type="checkbox"/> in compliance with 40 CFR Part 82 and I will continue to comply with all requirements. <input type="checkbox"/> not in compliance with 40 CFR Part 82 at this time, but I will be by: _____/_____/_____ (submit plan per instructions) <input type="checkbox"/> these requirements do not apply to my farming operations because no such activities are conducted.
<p>RULE 902 ASBESTOS</p> <p>Any owner or operator of a demolition or renovation activity, as defined in 40 CFR 61.141, shall comply with the applicable inspection, notification, removal and disposal procedures for asbestos containing materials as specified in 40 CFR 61.145 (Standard for Demolition and Renovation). [40 CFR 61 Subpart M]</p>	I have knowledge that if renovation or demolition activity is performed, applicable notification, removal, and disposal procedures are being met.	<input type="checkbox"/> in compliance with SMAQMD Rule 902 and I will continue to comply with all requirements of it and 40 CFR Part 61 Subpart M. <input type="checkbox"/> not in compliance with SMAQMD Rule 902 at this time, but I will be by: _____/_____/_____ (submit plan per instructions) <input type="checkbox"/> these requirements do not apply to my farming operations because no

2. Applicable Requirement(s) Applicable SMAQMD Rule and Section number that the farm must comply with.	3. Method used for determining compliance. This is the primary method used to determine the agricultural operation is in compliance with the applicable requirement.	4. Compliance Status (Use a separate form for operations with varying compliance status)
		such activities are conducted.
